

Readers Choose **The Top 10 Architects/Designers**

Each month, Women's Business asks readers for nominations to create a Top 10 list in a particular category. In this issue we present the region's leading architects and designers. Following are the dynamic professionals readers turn to for top-notch renovation and new project work.

Kathie Chrisicos

President

Chrisicos Interior Design

"Kathie Chrisicos is the No. 1 interior designer in my book. She balances our dreams with the realities of our home and our lifestyles. She is a pleasure to work with, always engaging and positive, and she finds solutions. Kathie creates layers of design, which grows as we grow, working with the colonial style of our house and our existing furniture and art objects, and creating a rich, personally resonant whole."
